Final Determination of an Administrative Review Investigation of The Anti-Dumping Duties With Regard to Imports of Polyethylene Terephthalate Originating in or Exported From Chinese Taipei, The Republic of Indonesia, The Republic of Korea and Thailand

On 14 October 2010 , the Government of Malaysia initiated an administrative review on anti-dumping measure imposed on imports of polyethylene terepthalate originating in or exported from Chinese Taipei, the Republic of Indonesia, the Republic of Korea and Thailand. A request for an administrative review was received from one of the domestic producers of the product.

The Government has now completed the investigation and has confirmed the likelihood of continuation or recurrence of dumping and injury to the Malaysian domestic industry with respect of imports of polyethylene terepthalate originating or exported from Thailand, if the anti-dumping duties were removed. Hence the anti-dumping measure in place regarding imports of polyethylene terepthalate originating or exported from Thailand will be continued at these rates:

Country/Exporter	**Anti-Dumping Duties**
Thailand	
Bangkok Polyester Public Co. Ltd	5.33%
Indorama Chemical (Thailand) Co. Ltd	49.25%
Indorama Polymers Public Company Limited	NIL
Thai PET Resin Co. Ltd.	36.45%
Thai Shinkong Industry Corporation	49.25%
Others	49.25%

The Malaysian Royal Customs Department will enforce the collection of the definitive duties. The final measure will be in effect for five years from the day the Government gazettes the final determination of the investigation.

The public report on the final determination is available to all interested parties (importers, foreign producers/exporters and associations) related to the investigation. Interested parties can request copies of this report by making a written request to the Ministry of International Trade and Industry, Malaysia:
