p/ preliminary figures

Notes

Details may not add up to totals due to rounding off.

1/ ASEAN 6 consists of Brunei Darussalam, Indonesia, Malaysia, Philippines, Singapore and Thailand, while CLMV comprises Cambodia, Lao PDR, Myanmar and Viet Nam.

2/ Lao PDR's data on 'by source country' for 2012-2013 are not yet available, intra-/extra-ASEAN breakdown are estimated by the ASEAN Secretariat.

The FDI is on a net basis, and computed as follows: Net FDI = Equity + Net Inter-company Loans + Reinvested Earnings. The net basis concept implies that the followings should be deducted from the FDI gross flows: (1) reverse investment (made by a foreign affiliate in a host country to its parent company/direct investor; (2) loans given by a foreign affiliate to its parent company; and (3) repayments of intra-company loan (paid by a foreign affiliate to its parent company). As such, FDI net inflows can be negative.
