DRIVING TRANSFORMATION, POWERING GROWTH **VOLUME 472**

13 FEBRUARY 2018 | NO. ISSN: 2180-0448

*Happy Chinese New Year, 2018*

Chinese New Year, also known as the Spring Festival, is the most important cultural festival to ethnic Chinese people all over the world. Malaysia too celebrates this festival as it has been an integral part of the rich tapestry of cultural diversity in this country for over a hundred years.

In 2018, Chinese New Year is ushered in on February 16, the first day of the first new moon, according to the Lunar Calendar. Chinese New Year is a public holiday here in Malaysia and it is a time for traditions to hold sway with family reunions, over-flowing food and abundant cheer at its very core. Kinfolk and friends alike, from near and far, travel across the country and even from beyond its shores, to return home to family for this 15-day celebration. The colour of red and orange - signifying good luck and wealth - are splashed across all Chinese homes in various symbols and decorative adornments, culminating in the much anticipated ang pow or red packets. In this day and age of rapid technological transformation, increasingly smarter phones and robotics, it is indeed heart-warming for me to observe that here in Malaysia, traditions and heritage are not forgotten – indeed it is celebrated through lion dances and dragon performances to the beat of clashing cymbals and heart-pounding drums. This is indeed a sight to behold and I warmly welcome all incoming tourists and expatriates here in Malaysia during this period to immerse themselves in this festivity and experience the many Chinese New Year ‘open-houses’ that is a uniquely Malaysian feature during any and all our festivities.

I have been informed by my many Chinese friends and colleagues that according to the Chinese zodiac, this is the year of the Earth Dog. I am also told that Earth Dogs – although quiet and reserved – are very direct and straight to the point. They are very loyal to family and friends, although they can be quite difficult to live with due to their high standards and changeable moods. They abhor any sort of injustice or unfair treatment and most importantly, can be depended upon to get the job done at the work-place.

The year 2018 promises to bring even more challenges as our nation ramps up its industrial competitiveness and further reform is carried out in our trade liberalisation agenda – with the ultimate objective of not only bringing a constant stream of high quality employment to our knowledge workers but also to take entrepreneurship to greater heights. The Malaysian community’s business acumen and entrepreneurial skills have substantially strengthened our economy and will continue to do so as we work together to overcome challenges brought directly by the global disruptions especially in technology and human capital development.

MITI will continue to strengthen our engagement, outreach and communication with the business community and the Rakyat at large to ensure that Malaysia continues to be at the forefront in addressing global economic challenges and bringing the benefits home. Enhanced competitiveness and business-driven productivity will be our underlying foundation. I strongly believe that the Ministry must deliver impactful services to the rakyat, who must ‘feel’ the direct benefits of MITI’s work.

As we welcome in the new lunar year and look forward to greater prosperity for our rakyat, it is my fervent hope that the Year of the Earth Dog will take Malaysia to ever greater heights of achievement. Let us all come together as one and be proud of NegaraKu.

As the lanterns are lit and the dumplings are served, I wish everyone a very happy and prosperous Chinese New Year 2018!

Gong Xi Fa Cai! Xin Nian Kuai Le!

**恭喜發財！新年快樂！**

## SEMINAR ON THE DUTCH APPROACH TO INNOVATION AND HIGH TECH DEVELOPMENT 8 FEBRUARY 2018, KUALA LUMPUR, MALAYSIA

The Seminar on the Dutch Approach to Innovation and High Tech Development held today is a joint effort by the Ministry of International Trade and Industry (MITI) Malaysia, the Embassy of the Kingdom of the Netherlands to Malaysia and Brainport Eindhoven.

The event is a follow-up to the recent visit of the Minister of International Trade and Industry Malaysia, YB Dato' Sri Mustapa Mohamed to the Brainport Industries Campus in Eindhoven, as part of his trade and investment mission to Europe in October 2017.

Brainport is a High Tech centre in the Netherlands with more than 140 companies and institutes, and some 10,000 researchers, developers and entrepreneurs, working on developing future technologies and products. Leading anchor companies such as ASML, PHILIPS, NXP, KMWE Group, DAF and VDL are active in Brainport and regularly undertake new areas of research including Integrated Photonics, Artificial Intelligence and Virtual Intelligence.

The Seminar was held in conjunction with the visit of H.E. Minister Sigrid Kaag to Malaysia from 8 to 9 February 2018. This is Mrs. Kaag's first trade visit since taking up her appointment as the Dutch Minister for Foreign Trade and Development Cooperation last October. Her delegation includes the Chairman of the Confederation of Netherlands Industry and Employers, Mr. Hans de Boer as well as CEOs from 30 Dutch companies.

The main objective of the Seminar was to create awareness of the technological development that can

be generated by the successful collaboration of government, industry and research institutes. The Seminar was attended by more than 250 participants, from the public and private sectors, local

universities as well as research institutions. Specific panel discussions were held focusing on the Dutch experience on Industry 4.0, as well as Brainport Eindhoven's success formula, including the adaptation of the triple helix model elsewhere around the globe. Malaysia's own National Industry 4.0 policy framework is expected to be announced by mid-2018.

Both Minister Mustapa and Minister Kaag also took the opportunity to discuss a number of bilateral issues of interest to Malaysia and the Netherlands including the opportunities to further the bilateral trade and investment relation, the possible re-launch of the Malaysia-EU FTA this year as well as recent developments on the multilateral front.

At the side-line of the Seminar, there were also business-matching sessions organised by the Dutch Embassy in collaboration with MIDA, involving 15 Dutch companies and more than 70 Malaysian companies and SMEs.

Economic relations between Malaysia and the Netherlands have seen an upward trend in recent years. In 2017, Malaysia's trade with Netherlands reached RM34.8 billion, whereby 77.4 per cent was contributed by exports. Malaysia's exports to Netherlands grew by 22.7 per cent, while Malaysia's imports from Netherlands increased by 11.7 per cent.

In 2017, the Netherlands ranked as Malaysia's 14th largest trading partner. She was also Malaysia's 12th largest export destination and 20th largest import source. Among the EU Member States, the Netherlands was Malaysia's largest export destination, as well as second largest trading partner and import source.

As at September 2017, 337 projects with participation of Dutch companies valued at RM27.3 billion have been approved in Malaysia, making the Netherlands Malaysia's second largest investor from the

EU, behind Germany. These investments are in key sectors such as electrical & electronics, petroleum products (including petrochemicals), food manufacturing and chemical & chemical products. Notable Dutch companies operating in Malaysia includes Shell, Dutch Lady, Unilever, Philips, Vopak and KMWE.

Besides the RM3.18 billion Global Business Services Centre established by Shell in Kuala Lumpur which employs over 1,700 people, a number of Dutch companies have also chosen Malaysia to set up their regional establishment including Benchmark Electronics, Mylaps BV and Kraton Polymers BV. There is strong interest in the Malaysian economy within the Dutch business community and many are leveraging on Malaysia's strategic position as their gateway to ASEAN. An increasing number of Malaysian companies is also choosing the Netherlands as their regional hub for Europe.

Ministry of International Trade and Industry (MITI)  
8 February 2018

# Glossary

## Balance of Payments (BOP)

The difference in total value between payments into and out of a country over a period.

Any transaction that causes money to flow into a country is a credit to its BOP account (i.e. sources of funds for a nation, such as exports or the receipts of loans and investments, are recorded as positive or surplus items) and any transaction that causes money to flow out is a debit (i.e. uses of funds, such as for imports or to invest in foreign countries, are recorded as negative or deficit items). Transactions taken into account include payments for the country's exports and imports of goods, services, financial capital, and financial transfers.

The BOP includes:

- the current account, which mainly measures the flows of goods and services;
- the capital account, which consists of capital transfers and the acquisition and disposal of non-produced, non-financial assets; and
- the financial account, which records investment flows.

BOP account is prepared in a single currency, typically the domestic currency for the country concerned.

BOP is an important subject to be studied for a few reasons:

- it provides detailed information concerning the demand and supply of a country's currency. (e.g. if Malaysia imports more than it exports, then this means that the supply of Ringgit is likely to exceed the demand in the foreign exchanging market, *ceteris paribus*. One can thus infer that the Ringgit would be under pressure to depreciate against other currencies. On the other hand, if Malaysia exports more than it imports, then the Ringgit would be likely to appreciate)
- BOP data may signal its potential as a business partner for the rest of the world. If a country is grappling with a major BOP difficulty, it may not be able to expand imports from the outside world. Instead, the country may be tempted impose measures to restrict imports and discourage capital outflows in order to improve the BOP situation. On the other hand, a country experiencing a significant BOP surplus would be more likely to expand imports, offering marketing opportunities for foreign enterprises, and less likely to impose foreign exchange restrictions.
- BOP data can be used to evaluate the performance of the country in international economic competition. Suppose a country is experiencing trade deficits year after year. This trade data may then signal that the country's domestic industries lack international competitiveness.

## BEC

Broad Economic Categories - Was originally devised mainly for the summarization of data on international trade by large economic classes of commodities. In addition, it was designed to serve as a means for converting external trade data compiled on the Standard International Trade Classification (SITC) into end use categories that are meaningful within the framework of the System of National Accounts (SNA) namely capital goods, intermediate goods and consumption goods. Each category of the BEC is defined in terms of divisions, groups, sub-groups and basic headings of SITC.

## BEF

Business Enabling Framework - Document prepared by the regulator in support of a regulatory proposal, following consultation with affected parties. It records the key steps taken during the development of the proposal, and includes assessment of the cost benefits of each option.

# ANNOUNCEMENT

## Asia-Pacific Economic Cooperation

### Post of Executive Director of the APEC Secretariat

Asia-Pacific Economic Cooperation (APEC), with 21 Member Economies, is a unique cooperative, multilateral economic forum that has been successful in promoting regional economic growth through trade and investment liberalization and facilitation, and capacity building since its inception in 1989. It has achieved this through open dialogue, consensus building and voluntary commitments. The APEC Secretariat, based in Singapore, fulfils an important role in coordinating and supporting the APEC process, including policy, technical and communications services to an extensive range of stakeholders.

APEC is looking to recruit a dynamic Executive Director for a 3-year term (with the option for a 1-3 year extension) to lead the Secretariat from January 2019. The successful candidate should be from an APEC Member Economy and must possess strong leadership qualities, extensive public sector experience (in government and/or semi-government organizations), senior management experience, proven public communication skills, high political acumen and multilateral work experience, preferably in trade or economic related areas. The ideal candidate should hold/have held a leadership position equivalent to a senior public servant. Extensive travel is expected.

Details of the application process, qualities and qualifications, key functions, job description, accountability and information on APEC are available at [www.apec.org](http://www.apec.org). A competitive expatriate package will be offered to the successful candidate.

Applications should reach us no later than **31 March 2018** via e-mail [recruit@apec.org](mailto:recruit@apec.org) or mailed to the Executive Director, APEC Secretariat, 35 Heng Mui Keng Terrace, Singapore 119616. Your application must indicate how your experience and qualifications match those required.

*Only shortlisted candidates will be notified*

## Investment Incentives Portal (i-Incentives)

I-Incentives is a portal that provides information on investment incentives offered by the Federal Government of Malaysia. The incentives information stored in the portal cater for all three sectors of the economy; manufacturing, services and primary. They also cover all types of incentives offered by the Federal Government; tax exemptions, grants, soft loans and other types of incentives such as equity funding, regional establishment status, training and other facilitation programmes.

The portal has been developed by Incentive Coordination and Collaboration Office (ICCO) in MIDA with the aim to improve the central coordination of all incentive offerings. This initiative is to enhance the effectiveness of the government's incentive mechanism by increasing transparency, eliminating duplication and linking investment incentives to performance.

## INNOVATION & PRODUCTIVITY RACE

### 'MEMACU PRODUKTIVITI NEGARA'

**22 MAC 2018 | KHAMIS | 8.30 PAGI**  
**MENARA MITI, JALAN DUTA**

## SYARAT PENYERTAAN

*Innovation & Productivity Race* merupakan acara pertandingan secara berjalan kaki/berlari sambil menjawab soalan yang diberikan yang berkaitan dengan pengetahuan umum serta aktiviti fizikal. Laluan pertandingan adalah sejauh 2 km sekitar perkarangan Menara MITI dan MATRADE.

#### PENGANJUR

Perbadanan Produktiviti Malaysia (MPC)

#### SYARAT-SYARAT

1. Penyertaan adalah terbuka kepada semua peringkat umur.
2. Peserta yang menyertai pertandingan ini perlulah SIHAT TUBUH BADAN dan tidak mempunyai sebarang penyakit kritikal.
3. Penyertaan terhad kepada 100 kumpulan sahaja. Setiap kumpulan wajib dianggotai seramai 5 ORANG sahaja. Pastikan daftar segera untuk memastikan anda menyertai program mini.
4. Setiap peserta dikehendaki memakai t-shirt yang diberikan semasa pendaftaran.
5. Setiap kumpulan juga hendaklah mempunyai sekurang-kurangnya satu telefon bimbit yang berkamera.
6. Penyertaan adalah PERCUMA.
7. Sekiranya anda telah menghantar borang, pihak penganjur akan menghubungi KETUA KUMPULAN sebagai pengesahan penyertaan. Pastikan telefon bimbit ketua kumpulan berfungsi dengan baik.
8. Peserta WAJIB mendaftarkan diri pada hari pertandingan berlangsung iaitu pada 22 Mac 2018, jam 8.00 pagi di Menara MITI. Pastikan anda dan ahli kumpulan memakai t-shirt yang diberikan.

#### HADIAH

Hadiah-hadiah adalah seperti berikut;

Tempat Pertama (Produktif): RM1000  
 Tempat Kedua (Inovatif): RM800  
 Tempat Ketiga (Kreatif): RM700  
 Tempat Keempat (Daya Saing): RM600  
 Tempat Kelima (Kompetitif): RM500  
 HADIAH SAGUHATI SEHINGGA TEMPAT KE- 25

#### TARIKH TUTUP PENYERTAAN

**9 MAC 2018 (JUMAAT)**

Pihak urusetia berhak melakukan sebarang pindaan berhubung syarat-syarat dan program pertandingan.

PERLU DIINGATKAN BAHAWA program ini bukanlah perlumbaan berdasarkan masa dimana kumpulan yang sampai dahulu tidak semestinya PEMENANG. Keputusan hakim pertandingan adalah MUKTAMAD dan sebarang rayuan tidak akan dilayan.
