**GLOBAL AUTOMOTIVE
TRENDS IN 2018**

UPDATES ON THE AUTOMOTIVE INDUSTRY 2017 AND OUTLOOK IN 2018

GLOBAL AUTOMOTIVE TRENDS

Growth of Electric Vehicle and Plug-in Hybrids

Government regulations, infrastructure, and tax incentives will be the key drivers for growth of electric vehicles and plug-in hybrids in ASEAN

Thailand and Malaysia will act as the main participants with their efforts to be the EV manufacturing hub in ASEAN

Focus on Green Cars

Green car policies are geared towards the growth of low emission and energy-efficient cars.

This will trigger vehicle production and will continue to be the growth pillars of the region

Intelligent Mobility

Shared mobility solutions will be the first to benefit from autonomous driving

A strong need to look beyond traditional sales models to strong leasing and shared mobility offerings is vital to initially break into the market

UPDATES ON THE AUTOMOTIVE INDUSTRY 2017 AND OUTLOOK IN 2018

KEY MESSAGES

UPDATES ON THE AUTOMOTIVE INDUSTRY 2017 AND OUTLOOK IN 2018

- **Employment**
 - 27,175 Jobs were created in the year 2017
 - 23,444 Foreign workers were replaced
- **Vendor Development**
 - Capability of vendors have improved (522 have achieved Level 3 capability in 2017 as compared to 456 vendors in 2016)
- **Energy Efficient Vehicles (EEV)**
 - Increase of EEV penetration by 9.2% (from 42.8% in 2016 to 52.0% in 2017)
 - Increase of EEV production by 24.6% (from 247,912 units to 308,807 units)
- **Upskilling Program**
 - Number of graduates increased by 16.5% (From 1075 graduates in 2016 to 1252 graduates in 2017)
- **Exports**
 - Exports for Parts and Components value is expected to increase by 7.1% (From RM 11.2 Bil in 2016 to RM 12.0 Bil in 2017)
 - Exports for Remanufactured Parts and Components is also expected to increase by 47.0% (From RM 510 Mil in 2016 to RM 750 Mil in 2017)

UPDATES ON THE AUTOMOTIVE INDUSTRY 2017 AND OUTLOOK IN 2018

- Market Maturity
 - Malaysia's vehicle to 1,000 people ratio is comparatively high with ratio of 348.6 as compared to other ASEAN Countries (Thailand with ratio of 228.1 and Indonesia with ratio 87.3)
 - Malaysia is a relatively more mature market in ASEAN
- Intense competition
 - TIV for Malaysia (with average of 600,000 units) is comparatively low as compared to other ASEAN countries (e.g Thailand with TIV of more than 1.9 mil units, Indonesia of more than 1.2 mil units)
 - Export is the way forward.
