- **Action Plan: To improve incentive coordination through the establishment of ICCO**

11th Malaysia Plan

Further Empowerment of ICCO

Strategy A4

Enhancing the management of investment incentives

The current investment incentive programme will be replaced with a more effective, transparent, and performance-based incentive programme to attract quality investment and boost productivity. The **Incentive Coordination and Collaboration Office (ICCO)** will be established under the **Malaysian Investment Development Authority (MIDA)** to act as a coordinator for all investment incentives. The ICCO will enable **cross-agency visibility** and allow for a more **holistic assessment of incentives through structured information sharing** between the approving government agencies. In addition, ICCO will undertake an **impact assessment on the incentives provided**, besides assisting in **high-level monitoring from a demand perspective**.

- Incentive Coordination and Collaboration Office (ICCO) was established in MIDA on the **15th April 2015**.
- Objectives:-
 - **Coordinating investment incentives schemes under a single portal;**
 - **Provide greater cross agency visibility and transparency of incentives offered;**
