MITI CONSULTATIVE DIALOGUE RETURNS TO DIRECTLY ENGAGE INDUSTRY PLAYERS 16 OCTOBER 2019, PERDANA HALL MITI

The Ministry of International Trade and Industry (MITI) lead a Joint Ministerial Dialogue Session, in MITI tower . In the event following the MITI Consultative Dialogue, Minister YB Datuk Darell Leiking engaged with representatives from Malaysian business and industry associations, as well as national and international chambers of commerce today.

The Dialogue, brought back by MITI after decade long hiatus, was joined by the Minister of Finance (MOF), the Minister of Water, Land and Natural Resources (KATS), the Minister of Human Resource (MOHR), the Minister of Domestic and Consumer Affairs (KPDNHEP), the Minister of Health (MOH), the Minister of Primary Industries (MPI), the Minister of Energy, Science, Technology, Environment and Climate Change (MESTECC) and the Minister of Entrepreneur Development (MED).

The MITI Consultative Dialogue serves as a platform between the Government and the private sector to address issues related to the industry engage industry stakeholders and gain industry insight through suggestions and feedback to further improve the government public delivery system. In the session, MITI Minister shared the government's common vision to attract quality investments, and spur positive spin-off effects towards high quality jobs for locals, optimisation of national resources and acceleration of technology penetration and adoption among the industry, in particular small and medium industries within the value chain.

"At MITI, it has always been our practice to conduct extensive consultation with stakeholders involved, and this was evident in the formulation of our National Policy on Industry 4.0, or widely known in MITI as Industry4WRD, National Automotive Policy 2019 and many others", said YB Datuk Darell. He further reiterated his awareness on issues including foreign labor substitution, cost of doing business, commodities, technology adoption and others raised by stakeholders throughout the consultations conducted by MITI since he was appointed to office.

Datuk Darell acknowledged that the Budget 2020 was in line the next phase of industrial development, coherent with the New Industrial Master Plan 2021-2030 that will be launched in 2020. Key strategies which include comprehensive future-proofing of incentives framework to allow the business community to leverage on external challenges and develop Malaysia into a preferred investment destination by attracting global multinational companies to establish regional hubs in Malaysia, and creating the needed ecosystem to nurture local players. "Please be assured that your concerns and suggestions will not fall on deaf ears. The era that the Government knows best is already behind us. I give you my word today that we at MITI will treat each and every single issue in high importance and we shall address them through collaboration with other Ministries and government agencies", he said.

The MITI Minister concluded by urging industry captains and key economic players to take active involvement in the upcoming APEC 2020, which is scheduled to be launched by YAB Prime Minister in December, this year. Overall, the above are the beginnings in realising the core principles and pillars of the Shared Prosperity Vision 2030 (SPV2030). The month-long MITI Consultative Dialogue 2019 was earlier launched by YB Datuk Darell Leiking on 12 September 2019 at MITI Perdana Hall, attended by more than 400 participants representing a total of 108 national and international chambers of commerce and business and industry associations in Malaysia.

A series of 32 mini dialogues have been organised after the launch including the session on 15 October 2019 to resolve as many issues as possible which include incentives, aerospace, automotive, textile, Industry 4.0, trade facilitation and ASEAN prior to today's Joint Ministerial Dialogue Session. Today, another 29 issues across 9 ministries were discussed which include government consultation, palm oil, renewable energy, licensing procedures for new hospitals, foreign workers, tax issues and water supply.

GLOSSARY

Source: <http://www.miti.gov.my/index.php/glossary>

SM:

Smart Manufacturing - A revolution in manufacturing business strategy, turning traditional factories from cost centers into profitable innovation centers, through the integration of industrial automation, IoT, and information technology (IT) including cloud services, 3D models, mobile computing, intelligence, and integration platforms.

SOM:

Senior Officials' Meeting - submits proposals to Ministers and implements policies made at Ministerial Meetings. SOM supervises and coordinates budget and working programs of APEC fora to implement declarations and directives given by APEC Leaders and Ministers. SOM is held in advance of and to prepare for Ministerial Meetings.

SOM Chair:

The lead person of the Senior Officials' Meetings with responsibility for reporting to APEC Ministerial Meetings on outcomes achieved and problems to be solved in the APEC year. The APEC host economy assigns a senior official, often of the deputy ministerial rank of that economy, as the SOM Chair with the leading role for Senior Officials' Meetings in a given APEC year.

SOM Senior Official:

Person who leads the delegation of a member economy to participate in the APEC Senior Officials' Meeting (APEC SOM) and is the official contact person for dialogues among member economies. Senior Officials are directly responsible to the Joint APEC Leaders for APEC related issues. Generally, APEC economies appoint officers of departmental rank or equivalent to take on Senior Official roles.

SP:

Special Products - Flexibilities given only to developing countries under the Special and Differential Treatment (SDT) to self-designate an appropriate number of tariff lines as Special Products (SP), guided by indicators based on the criteria of food security, livelihood security and rural development. Examples rice and live poultry.

SPS:

Sanitary and Phytosanitary Measures Agreement - sets out the WTO's basic rules on food safety and plant and animal health standards. Each country may set its own standards; however the standards must be based on science. They should be applied only to the extent necessary to protect human, animal or plant life or health. And they should not arbitrarily or unjustifiably discriminate between countries where identical or similar conditions prevail. Members are also encouraged to use existing international standards, guidelines and recommendations where they exist to reduce the likelihood of legal challenges stemming from WTO disputes.

SSG:

Special Agriculture Safeguard - SSG is a mechanism to deal with import surges or price falls and is provided for under the provisions of the Agriculture Agreement. Under the Uruguay Round commitments, some Members including Malaysia have notified products eligible for SSG. SSG is applicable for developed and developing countries. Malaysia notified 71 line of products under SSG.

SSM:

Special Safeguard Mechanism - The SSM introduced under the Doha Round to allow developing countries to undertake safeguard measures to temporarily protect domestic producers from sudden import surges and price decline.

SSB:

- **Services Sector Blueprint** - The Services Sector Blueprint (SSB) is formulated by the government to strengthen the services sector. It identifies key challenges in further developing the services sector and provides a set of horizontal strategies and action plan items for implementation.
- A total of 29 action plan items were recommended for implementation under four Policy Levers:
 - i) Internalisation Strategy
 - ii) Investment Incentives
 - iii) Human Capital Development
 - iv) Sector Governance Reform

Hong Kong, China; Malaysia; Republic of Korea; Singapore; Taipei, Chinese and Thailand.

The designations used in this report do not imply an expression of opinion by the Secretariat concerning either the status of any country, territory or area, or the delimitation of its frontiers.

POLITICAL BOUNDARIES

Changes in political boundaries since 1991 involving the former Czech and Slovak Federal Republic, the former Yugoslavia and the former USSR are reflected in this report, as far as available statistics permit. This means that, beginning with 1992, data for these former entities are no longer given. This information is replaced with data for their successor states. In the case of the successor states to the former Czech and Slovak Federal Republic and the former Yugoslavia, the statistics include their mutual trade. In the case of the successor states of the former USSR, the absence of detailed merchandise trade statistics for most of them has ruled out the inclusion of their mutual trade at the disaggregated product level, as well as, for comparability reason, at the aggregate level. However, recent improvements in data collection have meant that mutual trade between the successor states of the former USSR has been included systematically in the tables, starting with data for 1996.

INDUSTRY4WRD RELATED INCENTIVES

Having the extra capital allows SMEs to flourish and prosper. Find the suitable fund for your company.

01 | LOANS

Soft Loan Scheme for Automation and Modernisation (SLSAM)

- targets manufacturing sectors
- 4.0% interest rate per annum for SMEs

INDUSTRY4WRD READINESS ASSESSMENT

Get your firm assessed. Be ready for Industry 4.0.

All you need to know about Industry4WRD RA

What is it?

Trained assessors will help you to understand your readiness for Industry 4.0 and make recommendations on where to start your transformation.

Who is eligible?

- ✓ Manufacturing and its related services sector
- ✓ Incorporated under the Companies Act (1965/2016)/ Registration of Business Act (1956)
- ✓ Hold a valid license
- ✓ In operation for more than 3 years

What are the benefits?

To identify areas of improvement in terms of people, process and technology.

Receive comprehensive readiness report.

Be entitled to apply for financial incentives.

Process Flow

A FEW SIMPLE STEPS

Incentives for RA

- 500 SMEs will be selected for free assessment.
- Others will get tax exemption on RA fees up to RM27k.

MATRADE is organising the National Export Day (NED) 2019 on Thursday, 24 October 2019 at MATRADE Exhibition and Convention Center (MECC) Kuala Lumpur. The program will be officiated by YB MITI Minister Datuk Darell Leiking.

NED 2019 is part of MATRADE's strategies to intensify its export promotion initiatives with a view of nurturing and growing more Malaysian companies to become global champions.

More than 25 speakers from export and entrepreneurship ecosystem will be involved.

Interesting topics lined up:

- Opportunities for Growth with MATRADE's Global Trade Offices
- From Local Champions to Global Market Leaders
- Alternative Financing to Scale Your Business
- Taking Malaysian Business to the World
- Good Governance Builds Sustainable Business
- How to Become a Global Business Partner
- Digital Trade: The Enabler of New Market Opportunities
- as well as consultation sessions with MATRADE and related stakeholders.

The targeted participants for the program will include all sectors in the economy; beginning from new start-ups to advance exporters. MATRADE aspires 1,000 participants for NED 2019.

For further information, kindly contact:
