

## KENYATAAN MEDIA **MENTERI PERDAGANGAN ANTARABANGSA DAN INDUSTRI MENGENAI PASUKAN PETUGAS UNTUK MEMULIHAKAN PROTON**

Pada 8 April 2016, Jemaah Menteri telah meluluskan permohonan Proton untuk mendapat pinjaman mudah sebanyak RM1.5 billion. Tujuan utama pinjaman tersebut adalah untuk membantu Proton membuat bayaran yang tertunggak kepada syarikat-syarikat yang membekalkan komponen kepadanya.

Susulan kepada keputusan tersebut pada 11 April 2016 saya bersama-sama dengan YB. Senator Dato' Sri Abdul Wahid Omar, Menteri di Jabatan Perdana Menteri dan YBhg. Dato' Sri Idris Jala, CEO PEMANDU telah mengadakan perbincangan dengan Pengurusan Tertinggi DRB HICOM dan Proton berkenaan tindakan-tindakan yang akan diambil untuk melaksanakan keputusan Jemaah Menteri. Perbincangan lanjut telah diadakan di antara ketiga-tiga Menteri dengan Pengurusan Tertinggi Proton semasa lawatan ke syarikat tersebut pada 14 April 2016.

Perkara utama yang dibincangkan dalam pertemuan pada 11 dan 14 April 2016 ialah peranan Pasukan Petugas untuk memastikan semua syarat-syarat yang telah dikenakan oleh Kerajaan berkaitan dengan pinjaman mudah itu dipenuhi. Pasukan Petugas yang diketuai oleh YBhg. Dato' Sri Idris Jala di antara lain bertanggungjawab melaksanakan perkara-perkara seperti berikut:

- (i) Memantau pelaksanaan pelan pemulihan perniagaan Proton dan menjadikannya berdaya maju dan berdaya saing;
- (ii) Memantau pelan strategik bagi meningkatkan penguasaan pasaran dalam negara dan untuk menembusi pasaran eksport;
- (iii) Mengenalpasti rakan strategik dari luar negara dalam tempoh terdekat untuk membantu Proton memastikan perniagaannya berdaya saing dan berdaya maju.

Pasukan Petugas tidak akan terlibat dalam operasi harian Proton. Ini merupakan tanggungjawab sepenuhnya pengurusan dan Lembaga Pengarah Proton.

Pasukan Petugas yang diketuai oleh YBhg. Dato' Sri Idris Jala akan dibantu oleh wakil-wakil seperti berikut:

### Wakil Sektor Kerajaan

- (i) YBhg. Dato' Hj Nik Rahmat Nik Taib, Timbalan Ketua Setiausaha (Industri) MITI
- (ii) YBrs. Dr. Yusof Ismail, Setiausaha Bahagian Bahagian Pelaburan Strategik Kementerian Kewangan
- (iii) YBhg. Datuk Yogeesvaran Kumaraguru, Timbalan Ketua Pengarah (Makro), Unit Perancang Ekonomi

### Wakil Sektor Swasta

- (iv) YBhg. Tan Sri Azman Yahya, Pengerusi Eksekutif & Ketua Pegawai Eksekutif Kumpulan Symphony House Berhad
- (v) YBhg. Dato' Sri Shazalli Ramly Ketua Pengarah Eksekutif, Celcom-Axiata Berhad
- (vi) YBhg. Dato' Hamirullah Borhan Ketua Perkhidmatan Kewangan Komuniti, Maybank

Dato' Sri Mustapa Mohamed  
Menteri Perdagangan Antarabangsa dan Industri  
14 April 2016

# MIDA Lulus Pelaburan Peranti Perubatan RM1.8b

Lembaga Pembangunan Pelaburan Malaysia (MIDA) telah meluluskan 30 projek dalam industri peranti perubatan dengan pelaburan sebanyak RM1.8 bilion sepanjang 2015. Ketua Pegawai Eksekutifnya, Datuk Azman Mahmud berkata, peranti perubatan yang dibuat di Malaysia mempunyai piawaian yang tinggi dan diterima oleh hospital di seluruh dunia dan setakat ini, Malaysia mempunyai lebih daripada 200 pengeluar peranti perubatan.

“Dalam masa sama, kami juga amat berbangga kerana usaha gigih dan penglibatan kami dengan Abbott, syarikat perubatan optik yang mengeluarkan kanta intraocular (IOL) telah membawa hasil dengan pembukaan kilang di Kulim, Kedah.“Kilang yang mempunyai kapasiti untuk menghasilkan sehingga empat juta IOL setahun ini,

telah diluluskan oleh MIDA pada November 2013. Pada masa ini, syarikat mempunyai sejumlah 159 pekerja dengan 99 peratus daripada adalah rakyat Malaysia,” katanya dalam kenyataan di sini hari ini.

Menurut beliau, sebagai sebuah syarikat berintensifkan pengetahuan dan penyelidikan, Abbott memerlukan tenaga kerja berkemahiran tinggi dan teknikal seperti jurutera, saintis dan pakar-pakar yang berkualiti. Katanya, projek itu juga akan melibatkan aktiviti-aktiviti penyelidikan dan pembangunan (R&D) yang tertumpu kepada penambahbaikan kos, automasi dan pengubahsuaian kepada kaedah proses untuk meningkatkan hasil.

## Abbott Opens State of The Art Plant in Kulim to Supply Intraocular Lenses Around The World

The facility, which has the capacity to produce up to 4 million IOLs a year, was approved by the MIDA in November 2013. The company held its groundbreaking ceremony in April 2014 and began construction two months later.

Welcoming the commercial production of Abbott's medical optics plant for intraocular lenses (IOLs) in Kulim, Kedah, Dato' Azman Mahmud, Chief Executive Officer of the Malaysian Investment Development Authority (MIDA) said, “MIDA is indeed proud that our tireless efforts and engagements with Abbott has come to fruition with the opening of this facility. The facility, which has the capacity to produce up to 4 million IOLs a year, was approved by the MIDA in November 2013. The company held its groundbreaking ceremony in April 2014 and began construction two months later.”

Dato' Azman said that currently, the company boasts a total of 159 employees whereby 99% are Malaysians. Being a knowledge and research intensive company, Abbott requires highly skilled and technical talents such as engineers, scientists and quality experts. This project necessitates experts with a wealth of experience and knowledge in the field of medical technology and devices. This will result in a demand for local graduates in this field. The project will also involve R&D activities focusing on cost improvement, automation, and modification to process methodology to improve yield. Abbott will bring along much benefit to the country as the company is expected to increase its workforce up to 500 employees and 95% of its products will be for the export market, whereby US and the EU are among its major export destination.

“MIDA sees this USD60 million project as a catalyst to boost the development of the medical device ecosystem in the country. It is poised to attract not just players in the medical device industry but also pharmaceutical and food supplement companies,” he added.

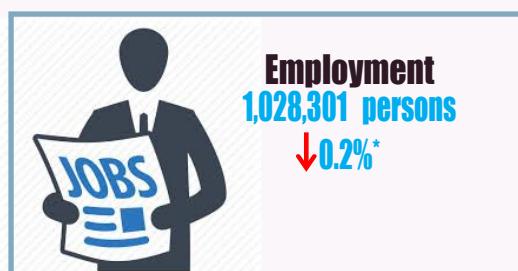

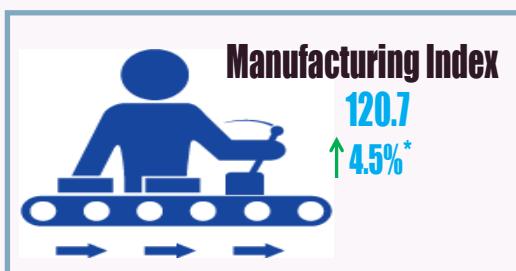

The medical device industry is expected to greatly contribute towards Malaysia’s aspiration to be a high income nation by the year 2020. Under the 11th Malaysia Plan, it has been identified as one of the high potential growth industries due to its strong linkages to other manufacturing subsectors as well as capabilities and potential to deliver more complex and high value added products. The medical devices made in Malaysia are of high standards and accepted by hospitals worldwide. To date, Malaysia has more than 200 medical devices manufacturers. Besides Abbott, the country is also privileged to host Haemonetics (USA), B. Braun Medical (Germany), St. Jude Medical (USA), CR Bard (USA), CIBA Vision (Switzerland) and Toshiba Medical Systems (Japan). In 2015, MIDA approved a total of 30 projects in the medical device industry with investments of RM1.8 billion. Last Monday, Boston Scientific, a global medical technology leader

# SUCCESS STORY

## FOCAL MANUFACTURING SDN BHD

Starting its operation as a humble family business in 1995, Focal Manufacturing Sdn Bhd has set its goal to serve global petroleum companies in Malaysia. Since its inception, FOCAL's core business is custom-fuel road tankers up to global standards, servicing and maintaining of road tankers, and other value-added services.

After more than a decade, FOCAL has undergone drastic transformation and has managed to spread its wings from local to regional markets as well as Australia and Oceania. Currently, FOCAL's production capacity has increased from six units to 18 units per month. Sales growth has expanded from just the local market previously to overseas markets such as Australia, Cambodia, Hong Kong, Indonesia, India, Mauritius, New Zealand, Oman, Papua New Guinea, Singapore and Thailand. This has resulted in growth of 300% in terms of sales revenue in FY 2005 and further 29% increase for FY 2008.

In order to achieve its aim of delivering the highest quality performance, FOCAL keeps abreast with the latest in technologies and re-invention of products. Its R&D team is constantly doing research and developing new products. Year after year, FOCAL has produced new products which have achieved many firsts such as the production of the largest 51-tonne XTO tapered design tanker in 2005, Malaysia's Largest Rigid Tanker

(22,000L) in 2006, the first custom-designed off-road heavy-duty tanker in 2008, the first-of-its-kind B-Double Tanker in Malaysia and Asia and the first LPG tanker in Malaysia in 2009. Furthermore, it has succeeded in producing a fleet of FOCAL's first aircraft refueler. All these new products and more are manufactured with stringent UN/ADR European standard.

Its success and high reputation as a reliable supplier is attributed to its product customization, excellent quality, reliability, competitive pricing, safety features, as well as speedy delivery. Another contributing factor is that FOCAL is the only tanker manufacturer with a full-fledged service crew in Malaysia, thus making it not only able to build tankers, but also to service and maintain them. With its proven excellent track record and distinct advantage in customization, FOCAL plans to further expand its export market.

FOCAL's achievements in its industry can be seen from its list of clients and alliances which includes most major oil companies. FOCAL has also received a number of accolades due to its success such as the Golden Bull Award 2008 (Top 100 Outstanding SMEs) and Enterprise 50 Award 2008. Focal is among the first five companies to be bestowed with the esteemed "National Mark of Malaysian Brand" by SME Corp. Malaysia.
