STATEMENT ON THE COMPREHENSIVE AND PROGRESSIVE AGREEMENT FOR THE TRANS-PACIFIC PARTNERSHIP (TPP)

1. Ministers of the 11 TPP countries have reached an agreement on the way forward to implement the Trans-Pacific Partnership Agreement (TPPA). The 11 members agreed on the text of the Agreement, renamed as the Comprehensive and Progressive Agreement for the Trans-Pacific Partnership (CPTPP). The Ministerial Statement and details of the Agreement have been made public and available on the MITI website.

2. Following the withdrawal of the US from the TPPA deal, the remaining countries have decided the way forward to implement the Agreement is by suspending a limited number of provisions, while maintaining the high standard and comprehensive nature of the Agreement.

3. Ministers agreed on 20 provisions to be suspended. A number of issues remain to be finalised before the signing of the Agreement. Dato' Sri Mustapa Mohamed, Minister of International Trade and Industry confirmed that among the provisions agreed for suspension that are of interest to Malaysia include biologics, patent term adjustment and copyrights.

4. He further added that Malaysia will continue to work closely with other countries in the work programme as part of the effort to finalise the outstanding issues.

5. The signing of CPTPP will be decided by all Parties once all the technical work and outstanding issues are finalised. Following the signing, the Agreement is open for ratification. The Agreement will enter into force once 6 signatories have ratified it.

6. Prior to this, the TPP-12 was signed after considering all costs and benefits associated with the trade deal. Despite the absence of the US, Malaysia still stands to gain benefits from market access to countries like Canada, Peru and Mexico. "Overall, we believe that the benefits from CPTPP will outweigh its costs in the context of Malaysia. Our continued involvement in the CPTPP is a testament of Malaysia's commitment to globalisation and multilateralism", said Minister Mustapa.

7. Another consideration for Malaysia is the impact to our economy should we decide not to join the CPTPP, while the remaining 10 countries move ahead. We will not only miss out on the opportunities to strengthen our trade and investment ties with these 10 countries, but also with those countries that have registered their interest to join the CPTPP in future.

8. "The agreement reached here in Da Nang, Vietnam will be brought back for further engagement with the relevant stakeholders back home", assured the Minister.

THE ECONOMIC POLICY LEADERS PROGRAMME: WORKSHOP ON URBAN TRANSPORTATION AND E-MOBILITY IN MALAYSIA: SMART MOBILITY TOWARDS IMPLEMENTATION OF ENERGY EFFICIENT VEHICLE (EEV) 8 November 2017

Ministry of International Trade and Industry

MEDIA RELEASE

THE ECONOMIC POLICY LEADERS PROGRAMME: WORKSHOP ON URBAN TRANSPORTATION AND E-MOBILITY IN MALAYSIA: SMART MOBILITY TOWARDS IMPLEMENTATION OF ENERGY EFFICIENCY VEHICLE (EEV)

The Economic Policy Leaders Programme (EPLP) was first introduced in 2016. A total of 124 officials from MITI and its agencies participated in six (6) EPLP workshops last year focused on economic and industrialisation transformation, investment promotion and trade facilitation. All these programmes were aimed at building talent in MITI and its agencies and were jointly funded by the Malaysian and Singapore Government.

This is the second year of MITI's collaboration with Singapore Cooperation Enterprise (SCE) and Temasek Foundation International (TFI), this time focusing on the automotive sector, revolving around vehicle environmental policy, technology and innovation of Energy Efficient Vehicles; also known as EEVs. Today's workshop on "Urban Transportation and E-Mobility in Malaysia: Smart Mobility towards EEV" will be organised from 8 – 10 November 2017 over 3-days in Kuala Lumpur.

For this year's workshop, Government agencies such as the Ministry of Transport (MOT), Ministry of Natural Resources & Environment (NRE), Ministry of Domestic Trade, Cooperatives and Consumer Affairs (KPDNKK), Land Public Transport Commission (SPAD), Economic Planning Unit (EPU) and the Malaysian Green Technology Corporation (GREENTECH) will also take part in the programme.

The National Automotive Policy (NAP) places emphasis on green initiatives, with the ultimate objective of establishing Malaysia as a regional EEV hub by the year 2020. In this context, EEVs are not limited to electric vehicle alone, but any vehicle that meets a set standard of fuel consumption and carbon emission level. Our EEV policy is tailored towards meeting future demands in vehicle technology including the need to produce skilled human resources, investments in technology and sustainable mobility.

Moving forward, the Government recognises the importance of digitalisation and connectivity as we move towards embracing the Fourth Industrial Revolution (Industry 4.0) in Malaysia. Automation is increasingly applied across various sectors including the automotive sector.

In his keynote address, the Deputy Minister highlighted the future of the automotive industry, which will evolve towards digitalisation, with "Internet of Things" (IOT) and Big Data Management becoming an increasingly ubiquitous feature to remain competitive. As the automotive industry continue to advance toward autonomous and semi-autonomous capability vehicles, there is opportunity to further improve Malaysia's own public transport landscape with wider usage of EEVs.

Ministry of International Trade and Industry (MITI)
8 November 2017

Ministry of International Trade and Industry

MEDIA RELEASE

Trans-Pacific Partnership Ministerial Statement

1. When we last met in Ha Noi, Viet Nam on 21 May 2017, the Ministers of Australia, Brunei Darussalam, Canada, Chile, Japan, Malaysia, Mexico, New Zealand, Peru, Singapore and Viet Nam, reaffirmed the balanced outcome and the strategic and economic significance of the TPP Agreement signed in Auckland on 4 February 2016 (hereinafter referred to as "the TPP") highlighting its principles and high standards as a way to promote regional economic integration and contribute to the economic growth prospects of its member countries, and create new opportunities for workers, families, farmers, businesses and consumers.

2. In May, Ministers tasked officials to engage in a process of assessing options to bring the comprehensive, high quality Agreement into force expeditiously. Over the past several months, officials have worked to reach a balanced outcome that maintains the significant benefits of the TPP.

3. Ministers are pleased to announce that they have agreed on the core elements of the Comprehensive and Progressive Agreement for Trans-Pacific Partnership (CPTPP). Ministers agreed to Annex I and II (attached) which incorporates provisions of the TPP, with the exception of a limited set of provisions which will be suspended. This text also incorporates a list of four specific items for which substantial progress was made but consensus must be achieved prior to signing.

4. Ministers agree that the CPTPP maintains the high standards, overall balance, and integrity of the TPP while ensuring the commercial and other interests of all participants and preserving our inherent right to regulate, including the flexibility of the Parties to set legislative and regulatory priorities. Ministers also affirm the right of each Party to preserve, develop, and implement its cultural policies. Ministers consider that the CPTPP reflect the desire of the Parties to implement the TPP outcomes among themselves.

5. Ministers confirm that the legal instrument proposed for the CPTPP allows the participants to act decisively in a timely manner to advance their shared objectives. Ministers reaffirm that the CPTPP demonstrates their firm commitment to open markets, to combat protectionism, and to advance regional economic integration.

6. Noting Article 6 of the CPTPP, Ministers shared the view that the scope of a review may extend to proposals to amend the CPTPP, to reflect the circumstances concerning the status of the TPP.

7. Furthermore, Ministers decided that all the TPP's side letters signed among the 11 countries will be maintained in principle, unless the relevant Parties decide otherwise.

8. Ministers tasked officials to continue their technical work, including continuing their efforts toward finalising those items for which consensus has not yet been achieved, and legal verification of the English text and translation, to prepare finalised text for signature.

9. Ministers recognize that each country will need to pursue its own domestic processes, including for public consultation, in advance of signature.

Ministry of International Trade and
Industry (MITI)
10 November 2017

Glossary

of Technical Terms

SCC

Single Country Content

Services

The service sector, also called the tertiary sector, is one of the three parts of the economy in the Three-sector hypothesis. This hypothesis breaks the economy into three main areas so it can be better understood. The other two are the primary sector, which covers areas such as farming, mining and fishing; and the secondary sector which covers manufacturing and making things. The service sector provides a service, not an actual product that could be held in your hand. Activities in the service sector include retail, banks, hotels, real estate, education, health, social work, transport, computer services, recreation, media, communications, electricity, gas and water supply.

Shipbuilding

Designing, building and construction of all types of floating vessels

Shipment Contract

Sales/purchase contract where the seller's responsibility ends when goods are handed over to the first carrier.

Single Undertaking

Nothing is agreed, until everything is agreed. Members must accept the results of trade negotiations in all areas instead of being able to selectively accept parts of the negotiations (contrast with early harvest).

Spaghetti Bowl Effect

Preferential trade agreements (bilateral and regional PTAs) create fundamental conflicts with multilateralism in that they promote trade liberalization based on discrimination between members of those agreements and non-members. The Spaghetti Bowl Effect is an illustration of the complicated situation which occurs when products are brought into important markets by various ways depending on their origins. Globalization of production makes the identification process of product origins more difficult.

Standstill

Standstill - one of the nine principles in achieving trade and investment liberalization and facilitation which was stated in the Osaka Action Plan (1995) of APEC. Based on this principle, each APEC member economy agrees not to take any measure that might increase protection levels, thus ensuring the sound and effective process of trade and investment liberalization and facilitation.

Stockholm Convention

A global treaty to protect the human health and environment from chemicals that remain intact in the environment for long period of time.

YOUR VIEWS MATTER!

PARTICIPATE IN MITI PORTAL SURVEY AND
HELP US SERVE YOU BETTER. (9 - 22 November 2017)

Our quick survey should not take more than 5 minutes of your time.

Take the survey now!!

The Information Management Division of the Ministry of International Trade & Industry (MITI) is currently conducting a survey to identify if our Portal (www.miti.gov.my) meets your expectations in terms of:

- contents (accurate and up-to-date information);
- design (interactive and attractive); and
- functionality (search function, applications).

2. There are 12 questions in this survey and it should not take more than 5 minutes to complete it. You may choose to answer the survey in [English](#) or [Bahasa Melayu](#).

Alternatively, you could also give us your comments via our "Your Views Matter" website. This survey is open until 22 November 2017 (Wednesday).

3. Please be assured that the information provided will be used solely for the purpose of this survey. Your feedback is important for us to enhance the Portal and serve you better.

*Note: Feel free to forward this email to your colleagues.

Thank you for support and participation.

EXPO NEGARAKU 2017 diilhamkan oleh YAB Perdana Menteri, Dato' Sri Najib Tun Razak bagi mempamerkan projek-projek infrastruktur semasa dan masa hadapan yang dirancang dan dilaksanakan oleh Kerajaan Malaysia demi menyediakan kehidupan yang lebih bermakna buat seluruh rakyat Malaysia.

Ekspo ini menawarkan satu pengalaman baharu buat para pengunjung untuk merasai sendiri denyut nadi pembangunan negara secara lebih dekat, sambil mengecapi satu pengalaman yang menyeronokkan.

Inilah peluang untuk anda dan keluarga atau rakan taulan untuk bersama-sama menyaksikan sendiri jaringan pembangunan yang telah dirancang selama ini, demi Negaraku Malaysia. Expo Negaraku berlangsung selama sebulan di Dataran Merdeka, Kuala Lumpur yang sarat dengan sejarah.

1	Pengembaraan anda bermula di Kubah 1 dengan tayangan video yang menyelami kehidupan rakyat Malaysia yang dilimpahi tuah hasil daripada kemajuan infrastruktur negara.
2	Membawa anda melihat sendiri segala kemudahan infrastruktur yang membawa transformasi kepada kehidupan rakyat Malaysia. Dari jalan raya, lapangan terbang, sistem transit aliran massa hinggalah ke penajaan kuasa. Rasailah sendiri kemudahan-kemudahan ini dengan cara yang berbeza.
3	Apa kata rakyat Malaysia tentang segala kemudahan ini? Kubah 3 mengupas testimoni benefisiari-benefisiari pelbagai program dan inisiatif yang menjana pertumbuhan ekonomi dan menambahbaik tahap kehidupan dan kesejahteraan rakyat.
4	Saksikan sendiri panorama Kuala Lumpur dari Menara PNB118, lanskap Pulau Langkawi yang menakjubkan dari puncak kereta kabel, serta infrastruktur moden sepanjang Lebuhraya Utara-Selatan. Semuanya secara interaktif di Kubah 4 yang membawa anda mengembara sepanjang infrastruktur pelancongan dan kebudayaan di Malaysia.
5	Paparan visual 360 darjah di Kubah 5 pasti akan menakjubkan anda ! Masa depan Malaysia di depan mata menerusi pembangunan Bandar Malaysia, Malaysia Vision Valley dan MyHSR. Segalanya untuk kita dan generasi seterusnya.
