FINAL DETERMINATION FOR THE ADMINISTRATIVE REVIEW (SUNSET REVIEW) INVESTIGATION ON THE ANTI-DUMPING DUTY IMPOSED ON IMPORTS OF PREPAINTED, PAINTED OR COLOUR COATED STEEL COILS ORIGINATING OR EXPORTED FROM THE PEOPLE'S REPUBLIC OF CHINA AND THE SOCIALIST REPUBLIC OF VIET NAM

On 22 January 2021, The Government of Malaysia initiated administrative review (sunset review) on the anti-dumping duties imposed on imports of prepainted, painted or colour coated steel coils (subject merchandise) originating or exported from People's Republic of China (PRC) and the Socialist Republic of Viet Nam (Viet Nam).

The investigation was initiated based on a petition filed by CSC Steel Sdn Bhd, on behalf of the Domestic Industry. Pursuant to subsection 28(8) of the Countervailing and Anti-Dumping Duties Act 1993, the administrative review (sunset review) was carried out by the Government of Malaysia to determine whether the continued imposition of the anti-dumping duty is necessary to offset dumping or/and whether the injury would be likely to continue to recur if the duty were removed or varied.

In accordance with the Countervailing and Anti-Dumping Duties Act 1993 and the Countervailing and Anti-Dumping Duties Regulations 1994, the Government has conducted and completed the administrative review and determined that the antidumping duties to be imposed on imports of subject merchandise originating or exported from PRC and Viet Nam shall be as follows:

Country	Producer/Exporter	Rate of Duties [Percentage (%) of the Cost, Insurance and Freight (CIF) Value]
People's Republic of China	All producers/exporters	52.10%
Socialist Republic of Viet Nam	i. Maruichi Sun Steel Joint Stock Company	12.06%
	ii. NS Bluescope Vietnam Limited	34.85%
	iii. Nam Kim Steel Joint Stock Company	NIL
	iv. Others	34.85%

The Royal Malaysian Customs Department will enforce the collection of the anti dumping duties for a period of five (5) years, effective 20 July 2021 to 19 July 2026. Interested parties such as local producers, importers, foreign producers/exporters and associations related to the investigation can have access to the non-confidential version of the public report on the final determination by submitting a written request to the Ministry of International Trade and Industry as follows:

GROSS FIXED CAPITAL FORMATION, 2020

Malaysia's Gross Fixed Capital Formation (GFCF) growth contracted 14.5 per cent in 2020 as compared to negative 2.1 per cent in the preceding year attributed the COVID-19 pandemic which has affected the performance of all economic activities. This was the biggest contraction since the Asian Financial Crisis whereby GFCF declined 43.0 per cent in 1998. The reduction in investments will lead to a lower production capacity in the future and thus have implications for potential output. GFCF remained as the second largest component in Gross Domestic Product (GDP) with a share of 20.9 per cent (2019: 23.1%) from the overall economy. The fixed asset investment continuously led by Private sector. Meanwhile, Structure was the main contributor for GFCF by types of assets.

Consumer Price Index (CPI) increased 3.4 per cent in June 2021 to 123.2 as against 119.1 in the same month of the preceding year. CPI remained positive for the fifth consecutive month since February 2021 due to the lower base effect last year as a result of the decline in fuel prices for private vehicles.
