RCEP

REGIONAL COMPREHENSIVE ECONOMIC PARTNERSHIP (RCEP)

THE RCEP COVERS:

- 1 Elimination or reduction of import duties
- 2 Promotion, facilitation, protection and investment liberalisation
- 3 Protection of intellectual property rights, facilitation in e-commerce
- 4 Economic and technical cooperation

RCEP CONSISTS OF

10 ASEAN member countries

5 ASEAN FTA Partner countries

MAIN OBJECTIVES OF RCEP

- 1 Strengthening regional value chain
- 2 User friendly and easy to use
- 3 Modern, comprehensive and high quality

RCEP

Regional Comprehensive Economic Partnership (RCEP)

The Regional Comprehensive Economic Partnership (RCEP) Agreement is designed to broaden and deepen ASEAN's engagement with Australia, China, Japan, Korea and New Zealand. The objective of the trade agreement is to establish a modern, comprehensive, high-quality, and mutually beneficial economic partnership that will facilitate the expansion of regional trade and investment and contribute to global economic growth and development in the region.

2012

The decision to initiate the Regional Comprehensive Economic Partnership (RCEP) Agreement begins at the 21st ASEAN Summit

2020

The RCEP is officially signed by 10 ASEAN member countries along with five ASEAN FTA partner countries after 31 rounds of formal negotiations

Total Population
2.2 billion

Total GDP US\$24.8 billion
28.9% of the world's GDP

PRIMARY OBJECTIVES

The RCEP Agreement is created to establish a modern, comprehensive, high-quality, and mutually beneficial economic partnership that will facilitate the expansion of regional trade and investment and contribute to global economic growth and development amongst RCEP member countries.

The single regional free trade agreement (FTA) is also intended to strengthen regional value chain for businesses in the region, particularly the Small and Medium Enterprises (SMEs).

It is designed to create and support an open, inclusive, and rules-based multilateral trading system, which will in turn create avenues for market and employment opportunities for businesses and people within the region.

The trade agreement will allow businesses in RCEP member countries to gain access to a much wider regional market. Progressive elimination and reduction of customs duties for trade in goods as well as facilitation of export and import of goods among the RCEP countries will serve to enhance inter and intra-regional trade and investment whilst strengthening regional value chains.

To serve as a vital economic tool to spur economic growth in the region. It will also allow more seamless opening of markets whilst creating uninterrupted supply chains within the region. The trade agreement is also intended to help facilitate transparency, information exchange and better compliance for technical regulations and standards amongst RCEP member countries.

KEY FEATURES OF THE RCEP

Trade In Goods

Progressive elimination of tariff and non-tariff barriers on substantially all trade in goods including the related chapters of rules of origin, customs procedures, sanitary and phytosanitary measures, standards, technical regulations and conformity assessment procedures and trade remedies in order to establish a free trade area among the parties.

Trade In Services

Liberalisation of services sectors, including financial services, telecommunications services and movement of natural persons. The RCEP will be comprehensive, of high quality and substantially eliminate restrictions and/or discriminatory measures with respect to trade in services between the RCEP participating countries. Rules and obligations on trade in services under the RCEP will be consistent with the General Agreement on Trade in Services (GATS).

Investment

Promotion, facilitation, protection and liberalisation of investment. The RCEP will aim to create a liberal, facilitative, and competitive investment environment in the region based on these four pillars in order to create an enabling investment environment in the region along with improved investment facilitation provisions as well as investor aftercare.

Economic & Technical Cooperation

The economic and technical cooperation provisions in the RCEP will build upon existing economic cooperation arrangements between ASEAN and ASEAN's FTA partners to narrow the development gaps amongst member countries. Under the RCEP agreement, cooperation activities will also include trade activities such as include e-commerce and other areas that would be mutually agreed upon by the RCEP participating countries.

Protection Of Intellectual Property Rights

Aimed at reducing IP-related barriers to trade and investment by promoting economic integration and cooperation in the utilization, protection and enforcement of intellectual property rights amongst RCEP member countries.
