---

On 25 August 2018, the Government of Malaysia initiated an anti-dumping investigation based on a petition filed by FIW Steel Sdn. Bhd. on behalf of the domestic industry producing flat rolled product of iron alloy or non-alloy steel, plated or coated with zinc, using hot dip process (galvanised iron coils/sheets or galvanised steel coils/sheets – galvanised iron). The petitioner alleged that imports of the said product originating in or exported from the People's Republic of China and Socialist Republic of Viet Nam are being imported into Malaysia at a price lower than the selling price in their respective domestic markets. The petitioner claimed that this is causing material injury to the domestic industry in Malaysia producing the like product.

The Government has conducted and completed a detailed investigation on producers and importers in Malaysia, as well as producers/exporters from the alleged countries in accordance with the Countervailing and Anti-Dumping Duties Act 1993.

The final affirmative anti-dumping duties imposed on imports of flat rolled product of iron alloy or non-alloy steel, plated or coated with zinc, using hot dip process (galvanised iron coils/sheets or galvanised steel coils/sheets – galvanised iron) from the People's Republic of China and Socialist Republic of Viet Nam are as follows:
