## INTRODUCTION TO ASEAN SINGLE WINDOW (ASW)

The ASEAN Single Window (ASW) is a regional initiative that connects and integrates National Single Windows (NSWs) of Member States.

ASW provides the secure IT architecture and legal framework that will allow trade, transport, and commercial data to be exchanged electronically among government agencies or the trading community.

The ASW currently supports the exchange of the intra-ASEAN certificate of origin (**ATIGA e-Form D**) and ASEAN Customs Declaration Document (ACDD) on a pilot basis among 7 Member States and will be expanded to exchange other types of data.
