INTRODUCTION TO ASEAN SINGLE WINDOW (ASW)

The ASEAN Single Window (ASW) is a regional initiative that connects and integrates National Single Windows (NSWs) of Member States.

ASW provides the secure IT architecture and legal framework that will allow trade, transport, and commercial data to be exchanged electronically among government agencies or the trading community.

The ASW currently supports the exchange of the intra-ASEAN certificate of origin (**ATIGA e-Form D**) and ASEAN Customs Declaration Document (ACDD) on a pilot basis among 7 Member States and will be expanded to exchange other types of data.

Eventually the ASW, because it uses international operability standards, can support the exchange of certificates of origin and advance cargo information with non-ASEAN trading partners.

ASEAN Member States (AMS) have agreed to amend the Annex 8, ATIGA - Operational Certification Procedure (OCP) to enable the acceptance of ATIGA e-Form D.

As of date, the **READY** Participating Member States (PMS): **Indonesia; Malaysia; Singapore; Thailand; Vietnam; Brunei and Cambodia.**
