Sir,

NOTIFICATION ON THE IMPLEMENTATION OF ASEAN SINGLE WINDOW (ASW) BY MALAYSIA

The above matter is referred.

2. The ASEAN Single Window (ASW) is a regional initiative that connects and integrates National Single Windows (NSWs) of ASEAN Member States. ASW provides the secure IT architecture and legal framework that will allow trade, transport, and commercial data to be exchanged electronically among government agencies or the trading community. The ASW currently supports the exchange of the intra-ASEAN Certificate of Origin **ATIGA Form D** with Participating Member States (PMS) between **INDONESIA, SINGAPORE, THAILAND** and **MALAYSIA**.

3. **Objectives of ASW** are as follows:

- To expedite the cargo clearance process, reduce cost and time of doing business, and enhance trade efficiency and competitiveness; and
- Simpler and faster processing time, and a more transparent way of doing business.

4. **Benefits of ASW** are as follows:

- Simpler and faster processing time, and a more transparent way of doing business;
 - Mechanism to eradicate forgery of ATIGA Form D; and
 - Lessen the verification issue relating to specimen signature and authenticity of the issuance of ATIGA Form D
-

5. **Enhancement in ePCO system**

Malaysia is expected to join the *Live Implementation of ASW* in **mid of October 2016**. Please be informed during the **Live Implementation phase**, the e-Form D data would be exchanged through ASW system between PMS but the preferential treatment would **still be given based on hardcopy Form D**. Thus, in the process of enhancing the current ePCO system to exchange the ATIGA e-Form D data to the Importing PMS, several **changes** have been made **in the current system** i.e. **data entry** for **multiple invoices** and **multiple packaging details**. Please refer to the 'Notes' to key-in information in the **INVOICE / PACKAGING** columns.
